0358171720 | thanhnguyentri2002@gmail.com | 10/09/2002

EDUCATION

Sai Gon University

Software Engineer, Minor in Information Technology

District 5, Ho Chi Minh

Sep. 2020 – Mar 2025

EXPERIENCE

INTERN .NET DEVELOPER

DAI DUONG COMPUTER CORP

July 2024 - September 2024

Thu Duc – Ho Chi Minh

- Built a web application leveraging .NET Core for the REST API
- Learn new technology and improve current technology in line with company system

PROJECT

JAPANESE DOMESTICS STORE

January 2025 - Now

Backend: github.com/TriThanh1009/StoreSellingJapaneseDomestics

Frontend: github.com/TriThanh1009/SSJDUI

Website: ssjdui.vercel.app/

- * Technologies:
 - **Backend:** C#, ASP .NET API, EF Core, Restful API
 - **Frontend:** React
 - **Database:** SQL Server (SQL Cloud)
- * Develop a website that allows buyers to place orders easily.
- * Built a full-stack web application leveraging .NET Core for the REST API and React for the frontend, ensuring seamless communication between client and server.
- * Login with email by firebase.
- * Integrate VietQR to enable seamless customer payments.
- * Build an admin page for store owners to track orders and manage product inventory.
- * Deployed by Google Cloud for backend.

HUMAN RESOURCE MANAGEMENT

October 2023 - August 2024

Github: github.com/thienlhtst/HRM

- * Technologies:
 - **Backend:** C#, ASP .NET API, EF Core, Restful API
 - **Frontend:** Angular
 - **Database:** SQL Server
- * Designed and developed a comprehensive human resource management system to efficiently track employee working hours and manage all related aspects of their schedules.
- * Built a full-stack web application leveraging .NET Core for the REST API and Angular for the frontend, ensuring seamless communication between client and server.
- * Implemented employee attendance tracking using QR code scanning for convenience and accuracy.
- * Developed robust authentication and authorization mechanisms to ensure secure access and role-based management of the system.
- * Provided in-depth analysis of employee performance metrics, including monthly and yearly summaries of salaries and work hours.

TECHNICAL SKILLS

- Programing Language: C#, JavaScript, TypeScript, HTML/CSS
- Frameworks: React, Angular, Bootstrap, Tailwind, Node.js, ASP .Net Core API, EF Core
- API Framework: Restful API, Postman
- Database: SQL Server, MySQL
- Developer Tools: Git, Docker, VS Code, Visual Studio, Google Cloud
- Language Skills: TOEIC Score: 570/990 (Test Date: November 2024)
